

Products: MLA-1100series, MLA-6100series

Please be informed that the PCB material of the models above mentioned will be changed for the product stabilization. Your understanding and cooperation would be appreciated.

- * The PCB material will be changed from the paper-phenol to the glass-epoxy.
- * There is no change in the electrical or mechanical specification.
- * No problem with the same usage as previous.

Implementation schedule;

Sequentially carried out from October 1st, 2019

- There is no mixed-up in the same order lot.
- The implementation will be rescheduled depending on the inventory status.
